PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience across operations, MIS and business intelligence, currently working in manufacturing. Builds Power BI and Excel dashboards, automates recurring reports with Python and Google Apps Script, and uses SQL to turn sales, production, inventory and finance data into KPI insights for management. Seeking a Data Analyst role in the UAE.

TECHNICAL SKILLS

BI & Reporting: Power BI (Power Query, DAX, data modeling), Tableau, Advanced Excel (Pivot Tables, XLOOKUP, VLOOKUP, Data Validation), Google Sheets

Data & Databases: SQL (MySQL), ERP data management, data cleaning, validation and reconciliation

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), Google Apps Script

Analysis: KPI tracking, sales and inventory analysis, exploratory data analysis, report automation

Tools: Git, PowerPoint

WORK EXPERIENCE

MIS Executive | AIPL TAPES, Umm Al Quwain, UAE **Feb 2025 – Present**

- Build and maintain Power BI and Excel dashboards covering Sales, Production, Inventory, HR and Finance for management reporting.
- Analyze sales performance, customer trends, collections and inventory to support business decisions.
- Automated recurring MIS reports using Google Apps Script, Python and Excel, replacing repetitive manual compilation.
- Monitor production, inventory and operational KPIs through regular data analysis.
- Validate, clean and reconcile data across ERP, Excel and Google Sheets so reports stay consistent across departments.
- Maintain sales, inventory, customer and ERP master data for accuracy.
- Work with Sales, Finance, HR and Operations teams to turn reporting needs into BI solutions.
- Received the Dedication & Commitment Award (2025) for performance, process improvements and reporting automation.

Data Science Intern | Technovalley Software India Pvt. Ltd, Kochi, India **Feb 2024 – Sep 2024**

- Cleaned, transformed and analyzed datasets using Python and SQL.
- Built interactive dashboards in Power BI and Tableau.
- Performed exploratory data analysis to identify trends and business insights.
- Developed machine learning models for predictive analysis.

Operations Executive | Infosys, Mysore, India **Aug 2021 – May 2023**

- Gathered and analyzed business requirements to support software development.
- Supported data validation, testing and process improvement initiatives.
- Created reports and documentation to improve operational efficiency.

PROJECTS

Sales Dashboard (Power BI, SQL, Excel)

- Interactive dashboard analyzing sales trends, revenue, customer performance and KPIs.

HR Analytics Dashboard (Power BI, Excel)

- Dashboard monitoring employee performance, attendance and workforce analytics.

Customer Churn Prediction (Python, Pandas, Scikit-learn)

- Machine learning model to predict customer churn.

EDUCATION

BSc Computer Science | Kannur University **Jul 2018 – Aug 2021**

Data Science | Technovalley Software Consulting **Feb 2024 – Sep 2024**
